

Group two

- 1 What Challenges are likely to be encountered in efforts gender balance or that can prevent realization of this decision at the national level?

Representation/ Capacity

Women led org to take up the Agenda

Looking at resource allocation in terms of things like funds

Focus on the need of capacity building women

Develop guidelines which are inclusive example National structures

Building capacity of the reps at the COPS

Building Opportunities of Gender desk officers

Disconnect among stakeholders.

Recognition and not acknowledgement in ref to the draft decision

2. We need a gender balance of women of developing countries since they are the once most affected by climate change.

Advance and marrying technology with what we are doing.

Consistent attendance by the negotiators

Strong feedback mechanist at the country level ie media briefings CSO roundtables

Increase the adaptation fund

Complete paper work ie drafts policies to be completed.

3. Media, Gender Commission, research bodies, academic institutions, Private sectors.
Parliamentary committees,
